The Trust has committed to the development of an Integrated Performance Report (IPR) to support the Board in the measurement, analysis and challenge of the organisation, in line with national guidance and sector best practice.

A summary version of the PIPR has been produced for May 2020. This includes the latest dashboard KPI and additional KPI metric information but excludes the performance summary, key challenges and spotlight narratives. Whilst the maintenance of clinical, operational and financial control and stewardship of the Trust remains critical during the NHS response to COVID-19 routine reporting to Committees is currently constrained by the requirement to devote maximum operational effort and resources to the COVID-19 readiness and response. The reporting flexibilities exercised have been taken at the discretion of the Trust Executive.

**May 20/21 Performance highlights:**

This report represents the May 2020 data. Overall the Trust performance rating was RED for the month. There was one domain rated as Green (Caring), two domains rated as Amber (Safe and Transformation) and four domains rated as Red performance (Effective, Responsive and People, Management & Culture and Finance).

**Recommendation**

The Board of Directors are requested to **note** the contents of the report.
