STANDING FINANCIAL INSTRUCTIONS

January 2020

FOREWORD

These Standing Financial Instructions (SFIs), together with the Trust's Standing Orders (SOs), provide a business and financial framework within which all Executive Directors, Non-executive Directors and officers of the Trust will be expected to work. All Executive and Non-executive Directors and all members of staff, including staff seconded to the Trust, should be aware of the existence of these documents and, where necessary, be familiar with the detailed provisions.

These documents fulfil the dual role of protecting the Trust's interests and protecting staff from any possible accusation that they have acted less than properly.

The Bribery Act 2010 applies to NHS bodies including NHS Foundation Trusts and reinforces the need to act with the utmost integrity, making it an offence to give, promise or offer a bribe and to request, agree to receive or accept a bribe either at home or abroad. The Bribery Act does not require any tangible or other item to be exchanged for an offence to take place. Any staff or agent of the Trust acting in an improper manner may also expose the Trust to the corporate offence of failing to prevent bribery. The Board of Director's has made a clear statement regarding the Trust's stance on bribery and this is available on the public website.

In addition to the SOs and SFIs, there is a Schedule of Decisions Reserved to the Board and Scheme of Delegation, Financial Procedural Notes and locally generated rules and instructions.

The SFIs have been formally adopted by the Board of Directors.

Any queries regarding the contents of this document should in the first instance be raised with the Management Accountant responsible for your area.

These Standing Financial Instructions have been written with due regard to the requirements of the Regulator (notably the Risk Assessment Framework, Code of Governance and Audit Code for NHS Foundation Trusts).

9.2 CHOICE, REQUISITIONING, ORDERING, RECEIPT AND PAYMENT FOR GOODS AND SERVICES

9.2.1 The requisitioner, in choosing the item to be supplied (or the service to be performed), shall always obtain the best value for money for the Trust. In so doing, the advice of the Trust's Head of Procurement shall be sought.

9.2.2 Wherever appropriate, the supply of goods and services shall be covered by a contract following a tender exercise.

9.2.3 There will be no requirement to obtain formal tenders or quotations where the Trust is dealing with a body or other entity which has, on the Trust's behalf, complied with the applicable laws in relation to the supply of goods and services.

In such instances:

- (a) the appropriate Director must approve, in the form of a written report, a case setting out all relevant circumstances of the purchase, before authorisation by the Chief Finance Officer. The report must set out the effects on the Trust if the supplier is at some time during the course of the prepayment agreement unable to meet his commitments;
- (c) the Chief Finance Officer will need to be satisfied with the proposed arrangements before contractual arrangements proceed; and

- (b) Managers must have due regard to the Trust's Standards of Business Conduct and if a potential conflict of interest arises should refer the matter to the Chief Finance Officer for advice.
 - (c) no requisition/order is placed for any item or items for which there is no budget provision unless authorised by the Chief Finance Officer on behalf of the Chief Executive;
 - (d) all goods, services, or works are ordered on an official order except works and services executed in accordance with a contract and purchases from petty cash and those by the purchasing card; using the Purchasing Card Procedure;
 - (e) verbal orders must only be issued very exceptionally - by an officer designated by the Chief Executive and only in cases of emergency or urgent necessity. These must be confirmed by an official order and clearly marked "Confirmation Order";
 - (f) orders are not split or otherwise placed in a manner devised so as to avoid the financial thresholds;

The Chief Finance Officer shall ensure that the arrangements for financial control and financial audit of building and engineering contracts and property transactions comply with best practice.

9.3 TENDERING OF GOODS AND SERVICES

(This section should be read in conjunction with the Trust's operational procedures for Tendering of Goods and Services. References to EU Directives and Regulation will be subject to revision according to the requirements of UK legislation following EU Exit).

9.3.1 General Applicability

Summary Table of Types of Procedure and Financial Limits

Value more than EU threshold as advised by Procurement, EU public procurement applicable. Value not more than EU threshold, procedure is as summarised in the table below:

	Tender	Quotation
Revenue	More than £30,000 At least 3 tender invitations to be sent wherever possible	More than £10,000 but not more than £30,000 At least 3 quotations to be obtained wherever possible
Capital	More than £50,000 At least 3 tender invitations to be sent wherever possible	More than £10,000 but not more than £50,000 At least 3 quotations to be obtained wherever possible

Amounts are exclusive of VAT and apply to both capital and revenue.

For current OJEU thresholds, please consult <http://www.ojec.com/thresholds.aspx>

9.3.2 Duty to comply with Standing Orders and Standing Financial Instructions

The procedure for making all contracts by or on behalf of the Trust shall comply with the Standing Orders and Standing Financial Instructions (except where Suspension of Standing Orders is applied).

9.3.3 EU Directives and Regulations Governing Public Procurement

Directives by the Council of the European Union and Public Contracts Regulations promulgated by the Cabinet Office prescribing procedures for awarding all forms of contracts shall have effect as if incorporated in the Standing Orders and Standing Financial Instructions.

Nothing in these Standing Financial Instructions can override these Directives.

9.4 FORMAL COMPETITIVE TENDERING

9.4.1 Procurement between £30,000 (Revenue) / £50,000 (Capital) and EU Procurement Threshold

The Trust will adopt formal tendering procedures for all procurements in excess of an estimated value of £30,000/£50,000 (and in some cases for lower value procurement which has been considered to be potentially complex or high risk).

However, the extent and complexity of the documentation should be no greater than is necessary for the nature or value of the requirements. Additionally, when selecting a suitable tender process for below EU threshold contracts as outlined above, care should be taken to ensure that there is no PQQ/pre selection stage introduced as this is prohibited by current procurement regulations.

All tenders must be advertised appropriately. This will usually be via the Trust's e-tendering portal and in keeping with the requirements of Regulation 110 of the Public Contracts Regulations 2015, contracts valued over £25,000 (but below the general EU threshold) must also be advertised on Contracts Finder.

9.4.2 Requirements above the EU Threshold

The tender process and timescales are governed by the Public Contracts Regulations 2015 (and the Public Contracts Regulations 2006 for processes commenced after 26th February 2015, including call offs from framework agreements established before 26th February 2015). Failure to comply with the relevant legislation carries severe penalties.

The scope of products and services that must be quoted or tendered is:

- the supply of goods, materials and manufactured articles;
- the rendering of services including all forms of management consultancy services;
- the design, construction and maintenance of building and engineering works (including construction and maintenance of grounds and gardens);
- the maintenance of equipment;

9.4.3 Voluntary Ex-Ante Transparency (VEAT) and Contract Award Notice (CAN)

EU Procurement rules must be followed at all times nothing in this SFI can override the European Regulation. In cases where there could be legitimate doubt as to the legal requirement to advertise the contract opportunity (for example, Schedule 3 services which fall below the higher threshold for the Light Touch Regime, below-threshold contracts, services concessions, the award of a contract under a national framework without a mini competition) the Trust should seek to remove the risk of an application for ineffectiveness under the first ground (i.e. awarding a contract without a prior contract notice) by publishing a VEAT notice and can reduce the time for limits for a finding of ineffectiveness by issuing a CAN notice.

If the total contract value exceeds the relevant EU threshold and the opportunity is not advertised, it may be challenged under the Remedies Regulation. Remedies the court may order include rendering the contract ineffective, imposing a fine on the Contracting Authority and/or awarding damages to the challenger and potentially the party providing the service.

9.4.4 Fair and Adequate Competition

Except where the suspension of Standing Orders applies, the Trust shall ensure that invitations to tender are sent to a sufficient number of firms/individuals to provide fair and adequate competition as appropriate, and in no case less than two firms/individuals, having regard to their capacity to supply the goods or materials or to undertake the services or works required.

The limited application of the single tender rules should not be used to avoid competition or for administrative convenience or to further award work to a contractor originally appointed through a competitive process.

9.4.5 Building and Engineering Construction Works

Competitive tendering cannot be waived for building and engineering construction works and maintenance without the approval of the executive and regulator where required.

9.4.6 Items which subsequently breach Thresholds after Original Approval

Items estimated to be below the limit set in these Standing Financial Instructions for which tendering procedures are not used, which subsequently prove to have a value above such limits, shall be reported to the Chief Executive and be recorded in an appropriate Foundation Trust record.

9.4.7 Tender reports to the Trust Board

Reports to the Board of Directors will be made on an exceptional circumstance basis only.

9.4.8 Financial Standing and Technical Competence of Contractors

The Chief Executive shall ensure that appropriate checks are carried out as to the technical and financial capability of those firms that are invited to tender or quote.

9.4.9 Discrimination

Firms tendering shall ensure that when engaging, training, promoting or dismissing employees or in any conditions of employment, shall not discriminate on such grounds as race, gender, disability, sexual orientation, age, religion or belief in accordance with the provisions of current equality and diversity legislation and any amending and/or related legislation.

9.4.10 Health & Safety

Firms shall conform at least with the requirements of the Health and Safety at Work Act and any amending and/or other related legislation concerned with the health, safety and welfare of workers and other persons, and to any relevant

British Standard Code of Practice issued by the British Standard Institution. Firms must provide to the appropriate manager a copy of its safety policy and evidence of the safety of plant and equipment, when requested.

9.4.11 Bribery Act

Firms tendering will conform to the requirements of the Bribery Act 2010.

9.5 QUOTATIONS: COMPETITIVE AND NON-COMPETITIVE

9.5.1 General Position on Quotations

Quotations are required where tendering procedures are not adopted under 9.4.1 above and where the intended expenditure or income exceeds, or is reasonably expected to exceed £10,000 (exclusive of VAT).

9.5.2 Competitive Quotations

Quotations should be obtained from at least three firms/individuals wherever possible based on specifications or terms of reference prepared by or on behalf of the Board.

Quotations should be in writing unless the Chief Executive or his nominated officer determines that this is impractical, in which case quotations may be obtained by telephone. Confirmation of telephone quotations should be obtained as soon as possible and the reasons why the telephone quotation was obtained should be set out in a permanent record.

All quotations should be treated as confidential and should be retained for inspection.

The Chief Executive or his nominated officer should evaluate the quotations and select the one which gives the best value for money. If this is not the lowest if payment is to be made by the Trust, or the highest if payment is to be received by the Trust, then this fact and the reasons for it should be in a permanent record.

9.5.3 Non-Competitive Quotations

Non-competitive quotations in writing may be obtained for the following purposes:

- (a) the supply of goods/services of a special character for which it is not, in the opinion of the Chief Executive or his nominated officer, possible or desirable to obtain competitive quotations;

- (b) the supply of goods/services of any kind which are required urgently and not obtainable under existing contracts;
- (c) miscellaneous services, supplies and disposals.

Where the goods or services are for building and engineering maintenance, the responsible works manager must certify that (a) and (b) are met.

9.5.4 Quotations to be within Financial Limits

No quotation shall be accepted which will commit expenditure in excess of that which has been allocated by the Trust and which is not in accordance with Standing Financial Instructions except with the authorisation of either the Chief Executive or Chief Finance Officer.

9.6 AUTHORISATION OF TENDERS AND COMPETITIVE QUOTATIONS

- 9.6.1 Providing all the conditions and circumstances set out in these Standing Financial Instructions have been fully complied with, formal authorisation and awarding of a contract may be decided by those staff as defined within the Trust's Scheme of Delegation.
- 9.6.2 These levels of authorisation may be varied or changed and need to be read in conjunction with the Trust's Scheme of Delegation.
- 9.6.3 Formal authorisation must be put in writing. In the case of authorisation by the Board of Directors this shall be recorded in their minutes.

9.7 INSTANCES WHERE FORMAL COMPETITIVE TENDERING OR COMPETITIVE QUOTATION IS NOT REQUIRED

- 9.7.1 EU tendering procedure must be followed in all cases where a proposed tender has a value in excess of one of the EU thresholds. Advice as to the current EU thresholds can be obtained from Procurement. For proposed tenders below those thresholds, competitive tendering procedures may be waived by officers to whom powers have been delegated by the Chief Executive without reference to him in the following cases. In each case, a Waiver of Tender or Single Tender Waiver document must be completed and must be supported by documentary evidence.
 - (a) the timescale genuinely precludes competitive tendering (failure to plan the work properly is not a justification for a non-competitive tender);
 - (b) specialist expertise is required and is available from only one source;
 - (c) goods are genuinely only available from only one provider;

- (d) the task is essential to complete the project and arises as a consequence of a recently completed assignment, and engaging different consultants for the new task would be inappropriate;
- (e) there is a clear benefit to be gained from maintaining continuity with an earlier project; however, in such cases, the benefits of such continuity must outweigh any potential financial advantage to be gained by competitive tendering;
- (f) this is provided for in the Annual Reporting Manual issued by NHS Improvement;
- (g) the supply is of legal advice and services obtained in response to or anticipation of legal proceedings, provided that any legal firm or partnership commissioned by the Foundation Trust is regulated by the Law Society for England and Wales for the conduct of its business (or by the Bar Council for England and Wales in relation to the obtaining of Counsel's opinion) and is generally recognised as having sufficient expertise in the area of work for which it is commissioned; the Chief Finance Officer will ensure that any fees paid are reasonable and within commonly accepted rates for such work;
- (h) a consortium or a national arrangement is in place and a lead organisation has been appointed to carry out tendering activity on behalf of the consortium members.

Where national arrangements referred to in (h) above (e.g. Crown Commercial Service (CCS) NHS Supply Chain and NHS Collaborative Procurement Hubs) apply, then the relevant framework rules whether this involves running a mini-competition or allowing a direct award under the framework. Similarly, where the Annual Reporting Manual issued by NHS Improvement ((f) above) so provides, non-competitive as well as competitive tendering procedures may be waived.

The limited application of the non-competitive tender rules should not be used to avoid competition or for administrative convenience or to award further work to a consultant originally appointed through a competitive procedure.

9.7.2 Where competitive tendering or a competitive quotation is not required the Trust should adopt one of the following alternatives:

- (a) the Trust shall use the NHS Supply Chain or nationally/regionally negotiated framework for procurement of all goods and services unless the Chief Executive or nominated officers deem it inappropriate. The decision to use alternative sources must be documented.
- (b) if the Trust does not use the NHS Supply Chain - where tenders or quotations are not required, because expenditure is below the defined

threshold, the Trust shall procure goods and services in accordance with procurement procedures approved by the Chief Finance Officer.

9.8 COMPLIANCE REQUIREMENTS FOR ALL CONTRACTS

9.8.1 The Board of Directors shall comply with:

- (a) The Trust's Standing Orders and Standing Financial Instructions;
- (b) EU Directives and other relevant statutory provisions, in particular note that all contracts shall provide for 30 day payment terms for undisputed invoices;
- (c) any relevant directions issued by the Regulator or the Department of Health
- (d) such of the NHS Standard Contract Conditions as are applicable.
- (e) contracts with other Foundation Trusts must be in a form compliant with appropriate NHS guidance.
- (f) where appropriate, contracts shall be in or embody the same terms and conditions of contract as was the basis on which tenders or quotations were invited.
- (g) in all contracts made by the Trust, the Board shall endeavour to obtain best value for money by use of all systems in place. The Chief Executive shall nominate an officer who shall oversee and manage each contract on behalf of the Trust.

9.9 ENGAGING STAFF INCLUDING AGENCY, TEMPORARY STAFF AND MANAGEMENT CONSULTANTS

9.9.1 The Chief Executive shall nominate officers with delegated authority to enter into contracts of employment, regarding staff, agency staff, temporary staff service contracts and contracts for management consultants.

9.9.2 All management consultant contacts will conform to the Regulator's management consultancy cap.

Advance approval must be secured from the Regulator before:

- new contracts for consultancy projects over £50,000 are signed;
- existing contracts are extended or varied, incurring additional expenditure to which the Trust is not already committed (where the total contract value exceeds £50,000).

For all new engagements and contract renewals:

- the Trust will carry out an IR35 assessment in line with HMRC guidance to determine whether an engagement will fall within IR35 rules or outside of IR35 rules. Only engagements outside of IR35 rules will be approved.

Management consultants assessed as inside of IR35 rules will be employed through the Trust's payroll as bank staff.

- board members and senior officials with significant financial responsibility should be on the Trust's payroll, unless there are exceptional circumstances. In these cases the Accounting Officer should approve the arrangement and such exceptions should exist for no longer than a six month period;

The Trust will require that the tax and NICS obligations of the individuals being engaged comply with in HMRC's off-payroll guidance 'Working Rules (IR35) for Public Authorities'.

- 9.9.3 All agency appointments will comply with the Regulator's rules including quality exceptions on agency caps unless notified to the Regulator where price caps are exceeded. The maximum charge for agency staff is as follows:

	Maximum Charge from 1 April 2016
Junior doctors	55% above basic
Other medical staff	55% above basic
All other clinical staff	55% above basic
Non clinical staff	55% above basic

9.10 HEALTHCARE SERVICE LEVEL AGREEMENTS

- 9.10.1 Service level agreements with NHS providers for the supply of healthcare services shall be drawn up in accordance with NHS Acts.

9.11 IN-HOUSE SERVICES

- 9.11.1 The Chief Executive shall be responsible for ensuring that best value for money can be demonstrated for all services provided on an in-house basis. The Trust may also determine from time to time that in-house services should be market tested by competitive tendering.
- 9.11.2 In all cases where the Board determines that in-house services should be subject to competitive tendering the following groups shall be set up:
- Specification group, comprising the Chief Executive or nominated officer/s and specialist.
 - In-house tender group, comprising a nominee of the Chief Executive and technical support.
 - Evaluation team, comprising normally a specialist officer, a Procurement officer and a Chief Finance Officer representative. For services having a

likely annual expenditure exceeding the figure defined within the Trust's Scheme of delegation, a non-officer member shall be a member of the evaluation team.

- 9.11.3 All groups should work independently of each other and individual officers may be a member of more than one group but no member of the in-house tender group may participate in the evaluation of tenders.
- 9.11.4 The evaluation team shall make recommendations to the Board.
- 9.11.5 The Chief Executive shall nominate an officer to oversee and manage the contract on behalf of the Trust.

9.12 Disposals (see also SFI 13, Disposals and Condemnations, Losses and Special Payments)

Tendering or quotation procedures shall not apply to the disposal of:

- (a) any matter in respect of which a fair price can be obtained only by negotiation or sale by auction as determined (or pre-determined in a reserve) by the Chief Executive or his nominated officer;
- (b) obsolete or condemned articles and stores, which may be disposed of in accordance with the policy of the Foundation Trust;

16 CHARITABLE FUNDS (FUNDS HELD ON TRUST)

16.1 INTRODUCTION

- 16.1.1 Standing Orders (SOs) identify the Trust's responsibilities as a corporate trustee for the management of charitable funds and define how those

responsibilities are to be discharged. They explain that although the management processes may overlap with those of the organisation of the Trust, the trustee responsibilities must be discharged separately and full recognition given to the accountability to the Charity Commission for charitable funds.

- 16.1.2 The reserved powers of the Board and the Scheme of Delegation make clear where decisions regarding the exercise of dispositive discretion are to be taken and by whom. Directors and officers must take account of that guidance before taking action. SFIs are intended to provide guidance to persons who have been delegated to act on behalf of the corporate trustee.
- 16.1.3 As management processes overlap most of the sections of these SFIs will apply to the management of funds held on trust. This section covers those instructions which are specific to the management of funds held on trust.

All donations of money and proceeds of fund-raising activities shall be banked, without delay, into the Charitable Fund Bank Account.

16.3 MANAGEMENT OF CHARITABLE FUNDS
