R&D SOP094 Signing off Clinical Competencies by CTCs

### Key Points of this Document

This document sets out the procedures which all Clinical Trial Coordinators (CTCs) who sign off clinical competencies should follow.

It provides guidance on the requirements for CTCs to sign off clinical competencies to R&D staff at Royal Papworth Hospital.

## **1 Purpose and Contents**

- a. This document defines the Trust's procedure for suitably trained Clinical Trial Coordinators to be able to sign off competencies.
- b. The document details the requirements for Clinical Trial Coordinators to assess competencies.

## **2 Roles & Responsibilities**

- a. This policy applies to clinical competencies that are conducted within the scope of practice of CTCs at the Trust.
- b. Staff involved in signing off competencies must comply with the requirements set out in Section 4.

## **3 Policy**

- a. This SOP is mandatory and, as per the Trust's Information Governance and Records Management framework, non-compliance with it may result in disciplinary procedures.

R&D SOP094 Signing off Clinical Competencies by CTCs

## **4 Procedure**

- a. The Trust's position is that signing off of competencies can be performed by trained and experienced members of the research team.
- b. Trust competency documents are used to assess and sign off competencies.
- c. For some competencies, staff whose clinical training included the competency i.e physiologist training, phlebotomists and those who can demonstrate and evidence they have these competencies, do not need additional training and may be trainers.
- d. All training must be recorded/filed in the individual staff member's training folder on EDGE in accordance with SOP002.
- e. In line with Trust policy, the individual staff member maintains accountability for their own competence and knowledge. It will be the individual's responsibility to highlight and arrange further training for any shortfall in training and competence. The individual will be expected to assess and arrange their own updates for the skill; any stipulated timelines for refreshers are set as a maximum timescale and do not preclude more frequent training as required.

### **4.1 Who can sign off clinical competencies?**

- f. Assessment of competence can be carried out by a Band 5 and above CTC, who has the relevant experience and has been trained and certified competent.
- g. The R&D competency document lists the competencies and how the associated training may be accessed and assessed.

## **5 Risk Management / Liability / Monitoring & Audit**

- a. The R&D SOP Committee will ensure that this SOP and any future changes to this document are adequately disseminated.

R&D SOP094 Signing off Clinical Competencies by CTCs

- b. The R&D Department will monitor adherence to this SOP via the routine audit and monitoring of individual clinical trials and the Trust's auditors will monitor this SOP as part of their audit of Research Governance. From time to time, the SOP may also be inspected by external regulatory agencies (e.g. Care Quality Commission, Medicines and Healthcare Regulatory Agency).
- c. In exceptional circumstances it might be necessary to deviate from this SOP for which written approval of the Senior R&D Manager should be gained before any action is taken. SOP deviations should be recorded including details of alternative procedures followed and filed in the Investigator and Sponsor Master File.
- d. The Research and Development Directorate is responsible for the ratification of this procedure.

## R&amp;D SOP094 Signing off Clinical Competencies by CTCs

**Royal Papworth Hospital**  
NHS Foundation Trust

What key element(s) need(s) monitoring as per local approved policy/ procedure or guidance?	Who will lead on this aspect of monitoring? Name the lead and what is the role of the multidisciplinary team or others.	What tool will be used to monitor/check/ observe/assess/ inspect/ authenticate that everything is working according to this key element from the approved policy/ procedure?	How often is the need to monitor each element? How often is the need complete a report? How often is the need to share the report?	Who or what committee will the completed report goes to.  How will each report be interrogated to identify the required actions and how thoroughly should this be documented in e.g. meeting minutes.	Which committee, department or lead will undertake subsequent recommendations and action planning for any or all deficiencies and recommendations within reasonable timeframes?	How will system or practice changes be implemented the lessons learned and how will these be shared?
Element to be monitored	Lead	Tool	Frequency	Reporting arrangements	Acting on recommendations and Lead(s)	Change in practice and lessons to be shared

R&D SOP094 Signing off Clinical Competencies by CTCs

			<i>*Individualise the timeframe(s)</i>	<i>*The lead or committee is expected to read and interrogate the report to identify deficiencies in the system and act upon them.</i>	<i>*Required actions will be identified and completed in a specified timeframe.</i>	<i>*Required changes to practice will be identified &amp; actioned within a specific time frame. A lead member of the team will be identified to take each change forward. Lessons will be shared with all the relevant stakeholders.</i>
