Items covered in this paper are:

- Goals for pay progression
- Update on the activity of the Staff Networks

**1. Goals for pay progression**

1.1 At the Trust Board meeting on 7 September 2023 there was a request that we set specific goals for the representation of the staff from a BAME background in AfC Band 7 and above pay bands in the Trust in support of our ambition to improve the equality of career progression. The purpose of this paper is to seek approval for these goals.

1.2 We have an objective in our Workforce Strategy to:

*“...I embed fair and inclusive recruitment processes and talent management strategies that target under-representation and lack of diversity as well as equity of career progression opportunities for staff of all protected characteristics.”*

1.3 Our WRES action plan includes several actions to support the achievement of this objective. We monitor progress via the WRES and we also monitor it at a high level via quarterly reporting in PIPR. However, to date we have not set specific goals to monitor our progress against.

1.4 Attached as Appendix 1 are proposed goals for 2023 – 2025. We are proposing setting goals for non-clinical and clinical staff as there are different career paths and issues affecting progression, for these different staff groups. The goals are based on us achieving proportionate representation across each band based on the overall ethnic composition of the workforce which is currently approximately 30% from an ethnic minority and 70% white.

1.5 It is proposed that we incorporate these goals into our WRES action plan and monitor progress against these via the EDI Steering Group and the Workforce Committee. The Workforce Committee have considered and approved this approach.

## 2. Staff Networks Update

2.1 All of the four staff networks continue to meet regularly and are leading on a varied range of initiatives to improve the working experience of staff and in many cases also the experience of our patients. I am extremely grateful for the inspiring leadership of the network leads. The current work/focus of the networks are set out below. All of the networks marked national Inclusion Week by running a cake sale to raise money for the RPH Charity as a thanks for the support it provides the Networks.
