

Angie Scales, Lead Nurse: Paediatric and Neonatal Donation and Transplantation, NHS Blood and Transplant

2014-16 Practice Development Specialist, NHS Blood and Transplant

2010-14 Specialist Nurse - Organ Donation, NHS Blood and Transplant

2003-10 Family Liaison Sister - Paediatric & Neonatal Intensive Care, Great Ormond Street Hospital

2000-03 Sister - Paediatric Intensive Care, Great Ormond Street Hospital

1994-00 Staff /Senior Staff Nurse - Paediatric Intensive Care, Great Ormond Street Hospital

Angie has worked within NHS Blood and Transplant (NHSBT) since 2010 firstly as a Specialist Nurse Organ Donation where she was embedded at Great Ormond Street Hospital, a trust where she had worked since 1994 as a Staff Nurse, Sister and Clinical Nurse Specialist in the Paediatric Intensive Care Unit.

Angie later worked within the NHSBT Professional Development Team where she led on national paediatric training initiatives.

Angie's key interests are in paediatric and neonatal organ donation and she has instigated strategies to support specialist nurses nationally in this area. Recent publications have focused on neonatal potential for donation, professional views / ethical analysis of elective intubation and the current status of paediatric donation in the UK. Angie is also Co-Chair of the Paediatric group within ELPAT the Ethical, Legal and Psychological subgroup of the European Society of Transplantation (ESOT).

Angie commenced her role as Lead Nurse: Paediatric and Neonatal Donation and Transplantation within NHSBT in February 2016 and is leading work in addressing the challenges of donation and transplantation in this field across the UK.
