

When and where do I collect my books?

That is the question!

You can collect your books 24/7 from the collection trolley next to the library enquiry desk on the 1st Floor Admin.

You will receive an email when they are ready to be collected.

Poor health literacy

How big is the problem?

43% of adults (18-65) do not have adequate literacy skills to routinely understand health information.

Health literacy is about a person's ability to understand and use information to make decisions about their health.

A patient with low health literacy will generally struggle to:

- read and understand health information
- know how to act on this information
- know which health services to use and when to use them (NHS England, 2019).

The World Health Organisation (2015) define health literacy as “the personal characteristics and social resources needed for individuals and communities to access, understand, appraise and use information and services to make decisions about health”.

Health literacy awareness seminar

Why should I attend?

“This training gives you the understanding of how a patient would feel if put in a difficult situation where they don't understand what is being asked of them.”
Research Administrator

Come along to the 1-hour seminar to learn more about the level of poor health literacy in the UK, and some tools and techniques to help support patients overcome this challenge.

The following dates are available:

Monday 9th March, 10-11.00

Wednesday 8th April, 8.30-9.30

Location: Royal Papworth Hospital, 1st Floor Admin Area

To book your place, visit our Training page, or email papworth.library@nhs.net

This training can also be delivered to teams as a 1 hour, half day or full day course. Please contact Becky Scott to discuss your requirements: becky.scott2@nhs.net

Resource of the month

ELMS Online Catalogue

Your library account at your fingertips

Understated but effective, [ELMS](#) is the library user's best friend. It is where you log in and manage your library account. You can find the link on our website under [Locate a book](#).

RPH Library Services have over 2000 print books all listed on ELMS. As a registered library member, you can also access the entire East of England health libraries' collection.

Using ELMS you can:

- browse and search our entire regional collection
- place holds
- renew books
- suggest purchase of new books
- request a journal article

If you haven't used ELMS for a while, give it a go today! You can [email us](#) if you don't remember your log in details or if you want a 10-minute 1-to-1 tutorial. You can find the [ELMS User Guide here](#).

Availability of articles in **Clinical Key is now clearer.**

You said

We did

You said: The message “Full text @ Papworth” implied that the full article was available in Clinical Key. It was not always the case and it was frustrating not knowing if you were doing something wrong.

We did: Now the message reads “Check if this article is available at Royal Papworth”. The link takes you to a screen with a blue button if the full text is available with our subscriptions. **Or** it clearly states, this is ‘not part of our institutional holdings’. In this case, we are happy to source it for you. Please log into [Elms](#) and complete the ‘Request a journal article’ form.

Thank you for filling in our survey. Your feedback improves our service!
